- 1U Fanless !
- Raspberry Pi CM5 !
- 10W TDP Support !
- A-RA18-M1B !

Slim 1U aluminium case with passive fanless cooling for Raspberry Pi Compute Module 5 and CM5 IO Board. The case supports up to 10W TDP, provides full I/O interface access and is ideal for industrial, commercial and embedded long-life applications.

Features :

- Passive fanless aluminium case for Raspberry Pi Compute Module 5 and CM5 IO Board
- Slim 1U chassis design
- Full CM5 IO Board interface access
- Internal clearance for M.2 NVMe SSD, 40-pin Raspberry Pi HAT and CSI / DSI camera and display
- Wall mounting brackets included
- Optional 1U 10-inch rackmount front panel available
- Ideal for industrial, commercial and embedded long-life applications

Material	Black sandblasted anodised aluminium
Wall Mounting	Supported
Dimensions	185 x 93 x 43.6 mm (W x D x H)
Motherboard Support	Raspberry Pi Compute Module 5 with Raspberry Pi Compute Module 5 IO Board
Maximum TDP Support	10W
Volume	0.8L
Front I/O Opening(s)	Display/camera slot x2, antenna fitting holes x2, power button x1
Rear I/O Opening(s)	HDMI x2, GPIO slot x1, antenna fitting holes x2, Ethernet x1, USB Type-A x2, USB Type-C (power-in) x1, microSD slot x1, SSD LED, power LED, status LED
Antenna Fitting Holes	4
Security	Kensington lock
Product Code	A-RA18-M1B
